Subject: RE: ACP/401/EJ

The DAQ requested additional information for the proposed ACP Northampton Compressor Station air quality permit on 12/4/17. The information request suspended the requirement for the Director to act on the permit within 30 days of the 11/15/17 public hearing.

The DAQ has not received a response to the additional information request. The information requested may take a few weeks to generate and there is no specific deadline for a response. Normal DAQ procedure is to leave the permit application open, but paused, until additional information is received.

The public hearing report has been drafted and will be submitted to the Director for review.

Thank you,

Michael Pjetraj, P.E.
Deputy Director
Division of Air Quality
North Carolina Department of Environmental Quality

All,

I am at an offsite meeting today, so I am cancelling the conference call. If you have any updates on the applications under your review, please provide to Doug, Bridget and me by COB tomorrow. Thanks.

Sheila
